

Bid Proposal

Facility maintenance and electrical upgrades

Sample Facility Services LLC

Agency: Sample Federal Agency

Solicitation: SAMPLE-2026-001

Date: 2026-09-11

Pricing Breakdown

01. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 1	\$3,500.00
02. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 2	\$3,625.00
03. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 3	\$3,750.00
04. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 4	\$3,875.00
05. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 5	\$4,000.00
06. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 6	\$4,125.00
07. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 7	\$4,250.00
08. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 8	\$4,375.00
09. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 9	\$4,500.00
10. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 10	\$4,625.00
11. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 11	\$4,750.00
12. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 12	\$4,875.00
13. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 13	\$5,000.00
14. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 14	\$5,125.00

15. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 15	\$5,250.00
16. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 16	\$5,375.00
17. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 17	\$5,500.00
18. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 18	\$5,625.00
19. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 19	\$5,750.00
20. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 20	\$5,875.00
21. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 21	\$6,000.00
22. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 22	\$6,125.00
23. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 23	\$6,250.00
24. Provide all labor, materials, supervision, temporary protection, and testing for replacement of the main electrical distribution panel in Building A - phase 24	\$6,375.00
Total Bid Amount	\$118,500.00

Experience & Approach

Sample document for design review. No offer is being submitted.

Phase 1: Coordinate access with the facilities team, confirm the scope, document the planned work, and schedule inspection before closing the task. Maintain service continuity and provide complete closeout documentation.

Phase 2: Coordinate access with the facilities team, confirm the scope, document the planned work, and schedule inspection before closing the task. Maintain service continuity and provide complete closeout documentation.

Phase 3: Coordinate access with the facilities team, confirm the scope, document the planned work, and schedule inspection before closing the task. Maintain service continuity and provide complete closeout documentation.

Phase 4: Coordinate access with the facilities team, confirm the scope, document the planned work, and schedule inspection before closing the task. Maintain service continuity and provide complete closeout documentation.

Phase 5: Coordinate access with the facilities team, confirm the scope, document the planned work, and schedule inspection before closing the task. Maintain service continuity and provide complete closeout documentation.
